

Prepare your Gizmo

1. Charge

Make sure your gizmo is fully charged.

2. Turn On

Turn on your gizmo by pressing and holding the button. If your gizmo has two buttons, press and hold the right button until the lights or the screen light up.

3. Activate

If you're the first caregiver to set up this gizmo, check that your gizmo is activated by pressing the Call button.

Note: If you are not the first caregiver to setup this gizmo, then you can skip this step.

Set Up Security PIN

You can set up a 4 digit PIN to protect your gizmo's information and prevent other people from seeing its location or changing its settings.

Your GizmoHub PIN is different from your phone's lock screen. You will have to enter this PIN when the GizmoHub app has been inactive for more than 2 minutes.

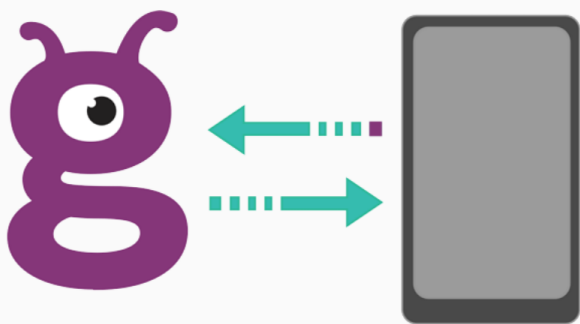

If you forget your GizmoHub PIN, the GizmoHub app will have to be reset.

Linking to Your Gizmo

Looking for VC 200's new gizmo.

Unable to Link to Your Gizmo

You aren't listed as a caregiver, so you can't link to VC 200's Gizmo. Ask VC 200's primary caregiver to add you as a caregiver using the app on their phone and then try again.

You are not listed as Caregiver.

Date and Time Not Accurate

The date and time on your phone aren't accurate. To use this app, your phone time needs to be set to the correct time in your time zone.

You can do this in one of two ways:

Go to Settings > Date and Time and turn on Automatic Date and Time.

or

Change your clock so that the time on your phone matches the time in your time zone.

OK

GO TO SETTINGS

Ensure that your Time & Date settings are set to automatic
